The screenshot shows the Scriptcase website homepage. At the top left is the Scriptcase logo with 'v6.1' next to it. To the right of the logo is the contact information: 'Contact Sales 1-800-925-0609 from 7am to 10pm (CST)'. Further right is a login section with the text 'MY SCRIPTCASE', a username field, a password field, and a 'Login' button. Below the login fields is a link: 'Did you forget your user/password?'. A navigation menu is located below the contact and login information, with links for 'Home', 'Samples', 'Videos', 'Download', 'Buy Now', 'Company', and 'Support'. Below the navigation menu is a grid of features, each with a green checkmark: 'Reports', 'Forms', 'Calendar', 'Editable Grid', 'Master/Detail', 'Menus', 'PDF', 'Flash Charts', 'AJAX Support', 'JQUERY Support', and 'Internacionalization'. A 'More features!' button is also present. Below the features grid is a section titled 'PHP code in minutes' with the subtext 'With ScriptCase PHP Generator is simple'. This section includes a diagram showing a database schema (with tables like Supplier, Products, and Category) being processed by the 'Scriptcase PHP Generator' to produce a web application interface (with elements like Reports, Charts, and Forms). Below this is a section for 'On-line samples' with the text 'See some applications generated' and a grid of application icons. To the right of the samples is a yellow box with three links: 'Download' (with a subtext about a trial version), 'Videos' (with a subtext about learning from videos), and 'Documentation'. At the bottom left of the screenshot is a 'ScriptCase demo' link and an 'On-line' badge.
