HIGH-DEFINITION MULTIMEDIA INTERFACE

## CABLES

Contrary to popular belief, HDMI cables do not correspond to connector version numbers, they are bandwidth-rated, and this determines which features are available.

## CONNECTORS

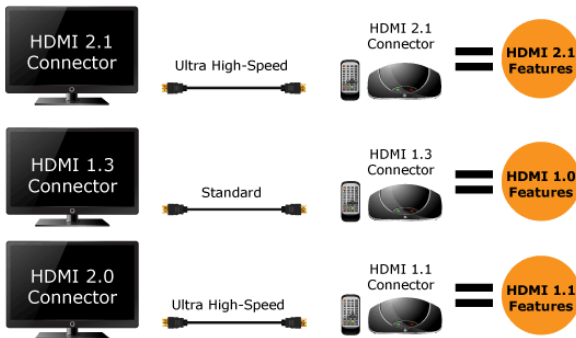

Every HDMI connector corresponds to a version number, and this number determines which features are available on a particular piece of hardware.

* 1.0	1.1	1.2	1.3	1.4	2.0	2.1
1080p	■	■	■	■	■	■

## CONFIGURATION

When configuring equipment, both the cable and connectors need to support the same features; otherwise, the connection defaults to the lowest available feature set.
